BPM Technology Solutions

Customer **PROFILE**

Nonstop Health

Nonstop Health was founded in 2021 with the belief that communities are most effective when high-quality healthcare is accessible – before and whenever help is needed. Initially, their flagship program, Nonstop Wellness (now Nonstop Health™), was only available to nonprofit organizations. Their belief was that this would make healthcare more equitable for nonprofits so that they could thrive and their employees could continue to make communities happier and healthier places — and be more competitive employers.
